The Harry Man,-The Boston Commonwealth makes the following extract from a phonographic report of a recent sermon by Rev. Theodore Parker, of that city. The original of the picture is understood to be a highly esteemed resident of Newton: "The happiest man I have ever known is one far enough from being rich in money, and one who will never be very much nearer to it. His calling fits him, and he likes it, rejoices in its process as much as in its result. He has an active mind, well filled. He reads and he thinks. He tends his garden before sancise, every morning-then rides sundry miles by the rail-does his work in the townwhence he returns happy and cheer(pl. With his ewn smile he catches the earliest smile of the mornng, placks the first rose of his garden, and goes to his work with the little flower in his hand, and a great one blossoming out of his heart. He runs over with charity, as a cloud with rain; and it is with him as with the cloud-what coming from the cloud is rain to the meadows, is a rainbow of glories to the cloud that pours it out. The happiness of the affections fills up the good man, and he runs over with friendship and love-connubial, parental, filial, friendly, too, and philauthropic, besides. His life is a perpetual 'trap to catch a sunbeam'—and it always 'springs' and takes it in. I know no man who gets more out of life; and the secret of it is, that he does his duty to himself, to his brother, and to his God. I know rich men, and learned pren-

MR. BUCHANAN AND THE ENGLISH MISSION .-The recent unfortunate difficulties, which seem likely to deprive the country of the services of Hon. James Buchanan at the Court of St. James, have been adjusted. President Pierce had an interview with Mr. Buchanan at Philadelphia on Wednesday morning, the result of which was that Mr. B. signified his acceptance of the important trust confided to him, and his determination to proceed upon his mission at as early a day as will suffice to make the necessary arrangements.

Of the terms of the truce between Messrs. Marcy and Buchanan, we are not, of course, authoritatively advised. We do know, however, that the Secretary of State has maintained his ground, insisting upon his own mode of arranging the diplomacy of the country, and providing the means of its conduct, and that Mr. Buchanan has had the good sense to acknowledge, by his acceptance, the Premier to direct and control the business of his Department of the Executive Government .- N. SAGACITY OF A GANDER .- One day last week a gander was "on duty" near the Canal Basin, at Albany, in keeping guard over a flock of goslings which led to a rencontre between his gandership and a rooster. The contest, however, was of short duration, for the gander seized the cock by the neck and straightway flew into the canal, where he throat his antagonist under water, and there for "Physical Exercises," which has been found to be of held him until he was dead! held him until he was dead !

An editorial article in the Maine Farmer complains that the poultry fever and the formation of poultry societies in various parts of the northern Atlantic States, have led to no other result than the getting up of shows of fowls that private individuals have bred from imported stock, while the important work to which these societies obviously should have devoted their energies, the domestication of new varieties of our native breeds, has been entirely neglected.

Or Mr. Robertson, an English writer, the author of a recent work on Mexico, expresses the opinion that the only alternative for Mexico is, such an alliance with England as will amount to a Protectorate, or an absorption into the United States. He himself desires the former; and the urpose of his volume is to show that an Anglo-Mexican ailiance is possible in itself, and would be profitable to both countries.

ACCIDENT TO THE STEAMER AFRICA .- The British steamship Africa met a mishap in leaving her dock, at New York, for Liverpool, on Wednesday. The tide drove her against a new dock, building near by her own, whereby she lost three or four buckets of the starboard wheel. However, after some little delay, she set out on her voyage.

Surve Raising in Vincinia.—It is stated there has been a larger number of sleep brought into Loudon county, Virginia, this year, than for several years past, and that there are now about 10,000 fine wool sheep in Fairfax county, which number is being constantly increased. The great demand for wool has induced many of the Virginia farmers to pay more than usual attention to sheep grazing.

Six-Pensy Savinos Bank .- It is stated that the exparament of a Six-Penny Savings' Bank, in New York, though only a few days old, succeeds far beyoud the most sanguine expectations of its mana gers. Deposits as small as five cents are received. Hundreds of mechanics, and the poorest persons, have already availed themselves of this opportunity to "lay something by for a rainy day,"

Debts of Women before Mauriage.-The N. case of the Liver-When the celebrated Dr. Rush declared that drunkeness was a disease, he enu ted a truth which the experience and observation of medical men is every day confirming. The many apparently, instance excesses of those who include in the use of spiritous liquors, may be thus accounted for. The true cause of conduct, which is taken for infatuation, is very frequently a diseased state of the Liver. No organ in the human system, when deranged, produces a more frightful catalogue of diseases. And if, instead of applying ramedics to manifestations of disease, as is soo often the case, ans would prescribe with a view to the original cause, fewer deaths would result from diseases induced by a deranged state of the Liver. R. R. H .- Miraculous Cures .- People wonder at

the quick efficacy of the R. R. R. Remedies in stopping pain, removing its causes, and curing the most obsticate complaints. Yet there is no mystery in it there is nothwere introduced, no remedy or meditine was ever known to stop the most forturing pains in a few seconds, and allay the most violent Cramps of Cholera, Neuralgia, Spasms, &c., in a few minutes. Radway's Ready Relief will stop pain instantly, because it produces a counteraction upon the parts where pain is felt. If the patient suffers from Neuralgis, it immediately nots upon the nerves, produces a counter irritation, invigorates the nerves, and imparts vitals ity to the parts where pain is experienced. The action of the Retief is quick, and the very moment it is applied, it begins to counteract the effects produced by discused notion. If you are the victim of Cholera, it agts instantlytaken internally, it settles the stomach and ullays all painful irritation and sickness, it infuses heat into the blood, and its warm and healthful influence thrills through every portion of the body; it NEUTRALIZES THE POISONOUS MALARIA OF CHOLERA AND CHECKS ITS PRO-GRESS. Applied externally, it allays Cramps and Spasms, and restores the cold-cramped and almost lifeless victim, to life and health. It you are troubled with Sick Headnohe, the Ready Relief taken internally will neutralize the acid of the stomach, make the stomach sweet and pure, and the breath fragrantly; externally, it will produce a counter action on the scalp and refresh the senses. This, then, is allthe mystery about the action of R. R. Relief, it does not lie in the action of the Relief, but in the science of its chemical and pharmaceutical combination. THIS celebrated medicine, skillfully composed as it is of the most healing balsams and pencirating oils, can never fail to cure almost every affliction that could be alleviated fail to cure almost every affliction that could be alleviated by an external remedy. Its superiority over all other Limments is proven by the miraculouscurses it performs, and by the great and constantly increasing demand. There has been sold within the past year more than THREE MIL-IAONS OF BOOTLES, and there can be but few persons found who do not bestow upon it the highest praise for the rare virtues it possesses. Nothing, perhaps, since the creation of the world, has been so successful as an external remedy for all nervous diseases, as this wonderful curative. When applied, it instantaneously diffuses itself through the whole system, southing the irritated nerves, alluying the most insystem, soothing the irritated nerves, allaying the most in-tense pains, and creating a most delightful sensation. My daughter, when six months old, was taken with a swelling in the tonsils, which grew larger and larger, till when six years old she had great difficulty in swallowing her food. Every night watch was kept, fearing she would suifocate. The heat doctors attended her but could give no relief. I took her to the most eminent doctors in the East; they said there was no help for her but to outgrow it. With a said heart I returned home with her, when she because output the doctors had to be called in again they much worse that the doctors had to be called in again; they decided that the tonsils must be cut off, as the only means of giving relief. My wife would not consent to this, and she descrained to try your Liniment, which gave relief the very first application, and by a continued use she entirely recovered. She is now ten years old and fleshy and healthy as could be desired.
